Ukraine launched its largest drone attack on Moscow, killing at least two and injuring 18, temporarily shutting down four airports. This escalation highlights Kyiv's growing drone warfare capabilities and strategic intent to pressure Russia ahead of potential peace talks. In response, Russia may intensify missile strikes or escalate military actions, with lawmakers already calling for hypersonic missile use. The situation threatens to derail diplomatic efforts, making international mediation crucial to preventing further escalation.

The ICC has been investigating mass killings during Duterte's crackdowns as mayor of Davao and later as president, with death toll estimates ranging from over 6,000 to up to 30,000. His arrest has sparked protests from supporters and celebrations among victims' families and critics, marking a significant step towards accountability for the thousands of victims of his administration's 'war on drugs'.

 **European Stocks Hold Steady Following Sharp U.S. Market Decline**

On Monday, US stocks experienced significant declines amid escalating concerns over the economic impact of President Trump's tariffs. The S&P 500 fell 2.7%, the Dow Jones Industrial Average dropped 2%, and the Nasdaq Composite plunged 4%, marking its largest single-day loss since 2022. Technology stocks were particularly affected, with Tesla shares plummeting 15.4% and major companies like Nvidia, Meta, Amazon, and Alphabet also suffering substantial losses. He emphasized efforts to repatriate wealth to America. Following these developments, Asian markets opened lower on Tuesday, reflecting global investor apprehension.
