### **Oil Prices Rise Following U.S. Advisor Comments on India Buying Russian Crude**

Oil prices rose following comments from a U.S. advisor indicating that India continues to buy Russian crude despite sanctions. This highlights the influence of global demand and major buyers' actions on energy markets. Analysis suggests that ongoing deals could exert political and economic pressure on international sanctions against Russia, while underscoring India's role as a key player in the global oil market, potentially affecting price stability in the short to medium term.

### **Foxconn and SoftBank Partner on Ohio Data Center Project**

Foxconn and SoftBank announced a partnership to build equipment for a major data center in Ohio as part of the "Stargate" project. The initiative aims to strengthen digital infrastructure and cloud computing capacity in the U.S. This investment highlights big tech's strategy to expand in the U.S. data center market amid rising cloud service demand. Analysis suggests the project could create local jobs and intensify competition in the tech sector, though its success depends on funding and deployed technology.

### **Trump: No NATO Membership for Ukraine, No Return of Crimea, as Zelensky Prepares for White House Talks**

Donald Trump stated that Ukraine would not join NATO and could not reclaim Crimea, while asserting that President Zelensky could end the war with Russia if he wished. His remarks precede Zelensky's White House talks with European leaders to discuss robust security guarantees for Ukraine. Analysis suggests Trump's stance may provoke domestic and international controversy over peace negotiations, while Ukraine and European allies aim to establish an alternative NATO-like security framework. This highlights the complexity of balancing political concessions with national security amid ongoing Russian military operations.
