

Inform, Analyze, Empower

The **Makana 360 Daily Monitor Report** aims to provide timely and insightful updates on the most significant global news and top events, offering a concise overview of key developments that impact businesses, politics, and society. By curating and analyzing major trends, the report enhances awareness, facilitates informed decision-making, and supports strategic planning for our audience.

How Pakistan shot down India's cutting-edge fighter using Chinese gear

Pakistan's J-10C fighters, armed with Chinese PL-15 missiles, shot down India's advanced Rafale jet on May 7, 2025, during a night mission prompted by Indian airstrikes over Kashmir. Pakistani forces relied on an integrated "kill chain" using Data Link 17 to coordinate air, land and space sensors—allowing them to remain undetected. India's intelligence had underestimated the PL-15's range, misjudging it to be only 150 km, enabling Pakistan to ambush Rafale pilots within 200 km.

US envoy tells Israeli hostage families he is working on plan to end Gaza War

U.S. Middle East envoy Steve Witkoff told Israeli hostages' families in Tel Aviv that Washington is collaborating with Israel on a comprehensive plan to end the Gaza war and bring home all remaining captives. He described Hamas as open to disarmament—though only if a sovereign Palestinian state with Jerusalem as its capital is recognized. The initiative aims to replace stalled 60-day ceasefire talks.

India to maintain Russian oil imports despite Trump threats, government sources say

India will maintain its purchases of Russian oil despite threats of penalties from U.S. President Donald Trump. Indian government sources emphasize long-term contracts and strategic considerations—citing that Russia made up ~35% of India's crude imports at about 1.75 million barrels per day in the first half of 2025. Although some state refiners paused recent buys due to narrowed discounts, overall policy remains unchanged. New Delhi insists on independent foreign-energy decision-making.
